Atlas Hits Target at 6,325 Miles

NEWSROOM NOTES — The wonderful hot water well at Monmouth isn't so wonderful any more.

For weeks, since the water temperature rose to 110 degrees, there have been theories as to the cause. Lovdahl got hundreds of letters suggesting that he check for uranium, fire in a coal vein—even a volcano fixing to erupt at his kitchen door.

William C. Ackerman, chief of the Illinois Water Survey, said today the whole fuss is traceable to a cracked hot water pipe.

Ackerman and a team of engineers from the survey office at Urbana solved the mystery this way. First, they drained the shallow well of its hot water. Then, as it began to refill, they noted that it cooled off considerably—an indication that its natural water source was cold.

Then, soil borings near the well were checked for temperature at varying depths. They showed the earth warmest near the surface, and normally cool farther down. But the warmest results came from the side of the well nearest the pump house.

In the pump house was a water heater. It has been working very well. The water from a second and deeper well, Lovdahl explained, was heated and then piped to the house.

The path of the pipe was traced. It ran close to the hot well. And, said Ackerman, it leaked.

Soil around the leak was tightly packed. So there was little heat dispersion, and the escaping hot water had found a subterranean channel into the shallow well. Lovdahl, who has complained that his hot well was attracting too many visitors, told Ackerman he plans to repair the pipe leak right away.

"We'll have a cool well again, and maybe things will quiet down," he said.

Now that our weather has been winterized, how about making sure your driving habits are winterized, too.

Robert Campbell, state co-ordinator of traffic safety, says:

"Good tires and tire chains are important to safe driving during the winter months, but a motorist is wasting his money on this equipment if he drives too fast for conditions.

"Reduced speed is a must during the winter, he said, because it takes three to 12 times longer to stop on snow and ice than it does under normal conditions.

"Unsafe speed is dangerous at any time, but it is especially hazardous when roads are wet or icy."

Campbell urged motorists to check their cars to make sure windshield wipers, heaters and defrosters are in good working order.

A window should be opened slightly to prevent windshield fogging, he said.

He advised motorists to get the "feel" of the road before moving into heavy traffic, and to adjust speed to conditions.

Dixon Couple Injured When Car Hits Pole

A Dixon man and wife were injured slightly Friday afternoon when the car in which they were riding skidded into a utility pole.

According to the police, the car, driven by Hugh J. Fippen, 66, 845 Forest Ave., went out of control in the 600 block of Bradshaw Street, hit a pole and came to rest on the lawn of 614 Bradshaw. Fippen was thrown from the car. He and his wife, Susan, 66, were treated by a physician for slight injuries.

A second accident caused by slippery streets Friday occurred at 3:05 p.m. at Second Street and Crawford Avenue. Police said Lloyd Doyle, 44, Rt. 2, Oregon, applied the brakes of his east-bound car and skidded into the side of one driven north by Clarence F. Long, 69, Polo. Neither was hurt.

Deep Snow Blankets Wide Areas in East

SISTER MOVING UP—Nancy Turner, left, 19, Champaign, who had the Grand Champion steer of the 1955 Livestock Show, poses with her sister, Jane, 16, whose steer won champion of the Angus class carcass on the hoof in Chicago, Friday. Jane was weighed along with the champion steer at sale time to give Nancy a larger price for the animal in 1955. (AP Photo)

It's Youth Day At International Junior Champion Steer Will Be Chosen Today

CHICAGO (AP)—More than 500 farm youngsters from 32 states took over the show rings of the International Live Stock Exposition today.

At day's end one will have shown junior champion steer and another the top junior barrow.

Friday, first winners among the more than 10,000 head of livestock entered in the 59th annual show were selected from 650 animals in carcass-on-hoof contests.

Jane Turner, 16, of Champaign, won the championship of the Aberdeen Angus breed in the carcass on hoof contest with a summer yearling, continuing a family pattern of show wins. Her sister, Nancy, 19, owned the grand champion of the 1955 show.

Second Place — The reserve (second place) Angus carcass was shown by Golden Dawn Farm, Carthage, Ind. Other winners in the steer carcass-on-hoof competition were: Shorthorn, Iowa State College.

University Wins — The University of Wisconsin won the barrow carcass class with a Poland China. The reserve champion, a heavy Poland China, was

1,300 Farm Kids in Chicago For 37th 4-H Club Congress

CHICAGO (AP)—Thirteen hundred farm kids came to Chicago today to live it up, city style.

And most any Chicagoan, stunned by the program facing the youngsters, would be happy to trade it for a few days' rest on a farm, milking cows, tending stock, filling silos and bagging grain.

The attraction is the 37th National 4-H Club Congress, an annual rally at which outstanding rural youngsters are rewarded for achievements in many classes of competition.

In the big hotels the waiters accustomed to chilling champagne were icing cans of milk. Hors d'oeuvre chefs were calling up all their artistry to make eggs look nothing like the simple hen fruit back home.

The congress will run through Thursday. No two days are identical but the pace is always the

10 Inches Cover Some Sections

Nation's Midsection Shivers in Early Season Cold Wave

By The Associated Press

A fast-moving snow storm, which left a blanket of white across the Midwest prairie lands before it moved eastward, dumped heaviest falls of the season across wide areas today.

The storm, powered by strong winds, spread more than 10 inches of snow in some parts of New England, Pennsylvania, New York and Ohio.

The major snow area extended from northern New England across northern New York State and western Pennsylvania into the Upper Ohio Valley.

South of the snow belt, cold rain chilled Southern sections. Sleet pelted areas in between the snow and rain belts.

Driving Hazardous — Driving conditions were extremely hazardous in most parts of the storm-battered regions. Several persons were killed in traffic accidents due to the ice-slicked and snow-covered highways.

Traffic slowed in the big cities, such as Pittsburgh and Cincinnati, as the first major snow storm of the season hammered in midwinter style across a wide stretch

(Continued from page 1)

Weatherman Predicts Zero For Illinois

CHICAGO (AP)—Scattered snow flurries swirled in winds up to 22 miles an hour and clouds covered most of Illinois today with zero temperatures on the way.

Highways in the southern section of the state, many of which were packed with heavy snow Friday, remained slippery with scattered patches of snow today. The state of Illinois Division of Highways said roads in the southern and eastern part of the state were particularly slippery.

The Weather Bureau said temperatures would dip to zero in northern Illinois tonight and to 20-30 degrees in the southern section of the state. The outlook for Sunday is for slightly warmer temperatures and continued cloudiness.

The snowfall measured nine inches at Olney Friday and 2½ inches at Springfield. The coldest spot in the state during the night was Vandalia—nine degrees above zero.

Other overnight lows included: Springfield 12; Quincy 15; Rockford 16; Moline 17, and Rantoul and Peoria, each 18.

CONGRESSMEN IN WEST BERLIN—Four U.S. Congressmen meet with West Berlin Mayor Willy Brandt, third from left, in West Berlin city hall after flying to the isolated city from Britain. At a news conference, three of the Congressmen declared the U.S. should use "whatever means are necessary" to keep Berlin out of Communist hands. From left are: Rep. Isidore Dollinger (D-NY), Rep. Karl LeCompte (R-Iowa), Brandt, Rep. Wayne Hays (D-Ohio), Rep. Frank Smith (D-Miss) and Paul Hertz, West Berlin's senator for economics in city government. Man mostly hidden in left background is unidentified. (AP Wirephoto via radio from Berlin)

West Berlin Mayor Asks Positive Action by West

Don't Just React to Red Schemes, Brandt Says

BERLIN (AP)—The West should deal with the whole German problem instead of merely reacting to Soviet schemes to gobble West Berlin, Lord Mayor Willy Brandt has advised.

Brandt urged Friday night that the Western powers counter Soviet Premier Khrushchev's plan to neutralize West Berlin in six months, with broad proposals on German unification. The West ought to act quickly because the Soviets "may put on pressure before the end of the six-month period," he said.

The dynamic Socialist mayor of 2,200,000 West Berliners who live 110 miles behind the Iron Curtain made his comments to foreign correspondents. He spoke after receiving firm assurances from many Western leaders of support against the Soviet demand.

To Reject Ultimatum — Diplomatic reports indicate the Western Big Three will reject Khrushchev's ultimatum — which the Soviet boss denies is an ultimatum. Foreign ministers of the North Atlantic Treaty Organization meet in Paris Dec. 16-18 and probably will work out the Western reply.

Khrushchev said Thursday West Berlin should be turned into a "demilitarized free city." He wants the 9,000 U.S., British and French troops here to withdraw while Communist East German troops and Soviet soldiers in the satellite state continue to surround the anti-Communist city.

Couldn't Help — Vice President Nixon of the United States, supporting Brandt's view, told newsmen in London Fri-

Controlling Forest Fire in California

LOS ANGELES (AP)—About 500 fire-fighters, aided by subsiding winds, brought a Santa Monica mountain blaze near control today.

Approximately 4,000 acres lay smoldering and blackened near Calabasas, some 25 airline miles northwest of Los Angeles. The fire, feeding on parched brush and trees, destroyed a small home, a cabin and a house trailer, and injured two firemen. It started from undetermined cause Friday afternoon.

Sixty-foot flames driven by 40 m.p.h. gusts burned to within about a mile of comedian Bob Hope's ranch. They consumed grass on Director John Huston's ranch property. The blaze swept across the Warner ranch, where firemen saved sets used in many Western movies.

Sheriff's deputies evacuated eight persons from homes in Stokes Canyon and about 12 others left voluntarily. Two hot spots lingered on the southern edge, but firemen hoped to contain the blaze later today.

Fireman Walter Black was tak-

Big ICBM Now Termed Operational

Successful Test Puts U. S. on Par With Soviet Union

WASHINGTON (AP) — A mighty Atlas missile streaked 6,325 miles from Florida to a target in the south Atlantic Friday night, showing the world the United States has a fully operational intercontinental ballistic missile.

The feat put the U.S. on a par with Russia which has claimed possession of an ICBM.

The "beast," as the Atlas is nicknamed, sped the distance in only about 30 minutes after roaring away from the Cape Canaveral launching pad.

Announced Today — Announcement that the missile was "successfully test fired for the first time over the full intercontinental range" was made this morning by the Defense Department after a check on data from observers and recording devices spotted along the missile's path.

Later an Air Force spokesman said the missile hit a designated target area after its long roaring flight across the south Atlantic. He added that "all test objectives were achieved essentially 100 per cent." The size of the target area was not disclosed.

The missile's silvertipped nose cone — which in event of war would be a nuclear warhead — dropped into the south Atlantic near Ascension Island.

Visible Four Minutes — The huge rocket sped into the Florida sky like a flaming meteor Friday night and remained visible for nearly four minutes as it curved gracefully into the path through the higher atmosphere to its target.

But, despite the very apparent success of the launching at 9:27 p.m., the Defense Department and Air Force waited until today to be absolutely certain before announcing results of the shot.

The Convair Division of the General Dynamics Corp., builder of the Atlas, claimed success of the flight shortly after the launching.

Official Word — The Defense Department announcement of the firing said: "The Department of Defense has announced that the Atlas ICBM launched last night was successfully test fired for the first time over the full intercontinental range, a distance of approximately 5,500 nautical miles. (6,325 statute miles.)

"The missile was fired over the Atlantic missile range from Cape Canaveral, Fla., at 9:27 p.m. EST Friday.

"The missile was powered for this significant flight by its three engine cluster.

Previous Firings — "Prior successful firings, all at less than the full range, but employing all three engines were on Aug. 2, Aug. 28, Sept. 14, and Nov. 17.

"Last night's test came less than a year after the first successful flight of the Atlas, made last Dec. 17, when the test vehicle went slightly more than 500 miles."

Electronic recording devices spotted on a number of islands and ships showed the progress of the missile over its range. Near Ascension Island, ships and aircraft on patrol watched for the impact of the nose cone.

The successful flight matched Russia's claim of possession of an intercontinental bombing missile.

Used for Sputniks — Russia is believed to have developed an operational ICBM and to have used it in launching the Sputniks.

The Atlas blasted off at 9:27

Jan. 10 Date For Rochelle Special Vote

ROCHELLE — (Special) — The Rochelle City Council Friday night tentatively set the date of Jan. 10 for a referendum on the sale of the municipal electric plant to Commonwealth Edison Co.

A town meeting to explain the proposed sale was tentatively set for Jan. 7.

Both dates are tentative pending word from the firm of Duff and Phelps, Analysts, as to whether or not a representative of the company can be present at the town meeting to explain the proposed sale to the public.

Edison has offered the city of Rochelle \$2,800,000 for the municipal electric plant.

Frank Spence, executive director of the Rockford Chamber of Commerce will serve as moderator at the town meeting which is being arranged with the co-operation of the Rochelle chamber.

A place to hold both the meeting and referendum will be set by William R. Hampson, secretary of the Rochelle Chamber of Commerce, when he returns Monday from a trip.

(Continued on page 6)

Monday Evening Is Shopping Time

Dixon stores will be open until 9 p.m. Monday for early Christmas shoppers. This is the first evening stores will be open during the Christmas season.

Lee Center Residents Have Oak Lawn Guests

BY ALICE PARLIN
Telegraph Correspondent

LEE CENTER — (Special) — Mr. and Mrs. Harry Kalsted and son Charles of Oak Lawn, Mr. and Mrs. Robert Kalsted and family of Markham and Mr. and Mrs. Norman Kalsted and family of Cicero recently visited with Mrs. Esther Kalsted.

Grant S. Conibear of Morton recently called on his brother, Eri Conibear.

Mr. and Mrs. Roland Ulrich entertained with a birthday dinner on Sunday, honoring their daughter Linda who is 15.

Guests were Miss Louise Odell, Karen Welman, Mr. and Mrs. Jack Carlson and sons, Mr. and Mrs. Robert Delhot and son, Mr. and Mrs. Chris Ulrich and Mr. and Mrs. John Brasel, grandparents, and Mr. and Mrs. Frank Oester of Sublette.

To Germany

Mr. and Mrs. James Harrison and daughter Mrs. Karen Hunter of Rock Falls were recent Sunday dinner guests of Mr. and Mrs. Earl Dunsteth. Mrs. Hunter will soon fly to Germany to join her husband.

Mr. and Mrs. Donald Cruse and Bonnie of Nachusa were recent dinner guests of Mr. and Mrs. Dan Cruse.

Mr. and Mrs. Robert Glass and

son Jerry of Sterling recently called on Mr. and Mrs. Earl Dunsteth.

Mrs. Earl Sensenig and family of Amboy spent several days last week with her parents, Mr. and Mrs. Harvey Foote, while her husband was attending a school in Chicago.

Dinner Guests

Mr. and Mrs. Andrew Delhot and Mrs. LeRoy Clayton and sons were recent dinner guests of Mr. and Mrs. Earl Cook, south Dixon.

Mr. and Mrs. Dick Archer and family of Compton, whose names were omitted last week, were also guests at the birthday party for Michael Jahn.

Mrs. Harry Eaton, Miss Alvina Hannaman of Kirkland, Mr. and Mrs. LeRoy Deardoff of Chicago and Mr. and Mrs. Arville Joynt of Dixon were recent dinner guests of John Hannaman and Mrs. Christina Herrick. They celebrated with a turkey pre-Thanksgiving dinner.

Mr. and Mrs. Clarence Camery of Polo were recent dinner guests of Mr. and Mrs. John Kriesche.

Mrs. Clarence Jeanblanc, Paw Paw, and Mrs. George Scheffler recently called on Mr. and Mrs. Albert Hill.

Mrs. Ray Dallam entertained with a coffee party honoring the birthday of her mother, Mrs. George King. Ten women were guests.

Mr. and Mrs. Michael Vera and son, Ernest O'Angelo and son Frank and nephew of Chicago were recent dinner guests in the home of Mr. and Mrs. Anthony Ucci.

Mr. and Mrs. Don Talbot and son of Dupue spent a recent Saturday with Mr. and Mrs. Lanny Rudd. On Sunday, Mrs. Rudd's parents, Mr. and Mrs. John Kingsley, spent the day and Jolly Rudd returned home with them for a visit.

Our New Neighbors

ROCHELLE — (Special) — Mr. and Mrs. John Kenney, Rt. 1, Oregon, are the parents of a son, Thomas John, born Nov. 25 in Rochelle Hospital.

Mr. and Mrs. Robert Vogel, 1022 Lincoln Ave., are the parents of a son, Robert Argene, born Nov. 26 in Rochelle Hospital.

The Rev. and Mrs. C. Emory Burton, Rt. 1, Oregon, are the parents of a son, Michael Charles, born Nov. 26 in Rochelle Hospital.

Mr. and Mrs. George Reif, Ashton, are the parents of a son, Jeffrey George, born Nov. 27 in Rochelle Hospital.

Mr. and Mrs. John Plum have gone to Sebring, Fla., to spend the winter.

Mr. and Mrs. Wayne Reinert, Moline, were Thanksgiving guests of his mother, Mrs. Rattie Travis. The Loyal Men and Women's Classes of Christian Church will hold a Christmas supper in the church at 6:30 p.m. Tuesday.

The Christian Fellowship class will meet Thursday to pack boxes for servicemen.

Mrs. R. Degner Elected President Of Ladies' Circle

LEE CENTER — (Special) — Mrs. Ray Degner, present vice president, was elected president of the Evening Ladies Circle at an election of officers at a recent meeting held in the home of Mrs. Esther Kalsted.

Other officers are Mrs. Earl McNinch, vice president Mrs. Don Spotts, secretary; Mrs. Roy Conibear, treasurer; and Miss Louise O'Dell, program chairman.

Instead of the usual gift exchange, donations will be made to be used for helping a needy local person. Next meeting of the group will be Dec. 17.

Methodist Men

Natural Stone Is Handsome, Rich Material

DON'T OVERLOOK STONE in your home decorating plans. It's a real glamorous material, says one prominent American architect, and when properly used can lend new beauty to almost any interior.

"The esthetic value of a natural material as handsome as most stone happens to be," says Herman H. York, whose house designs have won many awards, "will produce a richness and warmth not readily achieved in synthetic materials."

Stone has many textures, colors, patterns and finishes. And quarries and stone yards are now using special guillotine presses to split natural stone in pieces as thin as 1/8 of an inch.

Too, there is a harmonious relationship between natural stone and wood—and these two materials complement each other particularly in interiors where natural stains allow the graining of wood to remain apparent.

Architect York frequently uses stone for transition from the outside to the inside of the house. This is done in several ways including the use of stone as flooring material on an entrance porch and repeating it as the floor material inside the foyer.

STONE PLANTERS outside and inside the foyer also achieve such transition, particularly when the planters are separated by a side glass panel in the entrance door.

York says any house in the medium to large size group can be enhanced by using stone "as the welcoming focal point" in the entrance foyer.

"The luxury suggested by this material makes for a masculine ruggedness and produces an air of stability," he explains. "In modern design, the exterior finish can be carried through to the interior with glass as the separation. And the use of plants, both on the outside and inside, makes for greater use of masonry at such points of transition."

Stone can be used on walls as a facing material, on raised hearths designed for seating purposes, and as cantilevered shelves in brick or stone walls for supporting statuary or plants.

An open plan of interior arrangement, the architect says, "can be made more appealing to the eye by carrying a foyer floor of stone into the dining room. The dining-foyer floor in stone is both handsome and practical. Where dining rooms double as buffet areas for large parties, the stone floor creates a feeling of informal luxury."

With imagination, York says, additional uses will be found for stone in bedrooms and bathrooms. But in kitchens and laundry rooms, "where simple dish cloth maintenance is required, it is difficult to compete with some of the excellent plastic surfaces now being used."

There are many wall areas where stone may be used in new ways, he says. "For example, wherever a low wall divider is needed, stone can be used with decoratively designed plant areas nearby. Development of thin stone veneers with its light weight advantage will encourage such use."

Above all, York emphasizes, "stone will help to glamorize our home interiors. Used in good taste, in proper relationship to other materials, in correct scale to room size, in pleasing color to harmonize with the furnishings, stone has tremendous possibilities as an interior finish."

Bingo is a variant of lotto and is the most widely played gambling game, according to the Encyclopedia Britannica.

Some relics show the mastiff breed of dog was flourishing as early as 300 B.C.

Handy Man Finds Maintenance Pays

CHECKING BELT TENSION—This minor task of checking the belt of the furnace's motor-fan unit is but one of the many maintenance items that take but minutes, save dollars.

Your home is a machine for living and, like any machine, it requires maintenance.

It's obvious that holes in the roof need fixing unless you want to sit in a puddle.

Much less evident but equally necessary is the task of giving your many mechanical servants regular maintenance. Minutes spent in minimal care pay off in dollars saved, over the years.

The amount of maintenance needed is small, but it should be performed regularly.

An oil can, a pair of pliers, a screwdriver, a file, and a wiping cloth are about all the tools and supplies you'll need.

Standard parts are available at most hardware and electrical stores. Spare bulbs can be purchased most anywhere.

Make a list of the sizes you use in each lamp and fixture, and keep spares on hand.

Check cords on all lamps and appliances regularly. They generally show wear first at the plug or at the end attached to the appliance. Cut out the worn portion and reconnect. Breaks and worn spots elsewhere call for replacement. While splices can be made, they can also be dangerous. Wire is expensive, so play safe.

Check plugs to see if they fit securely. Make sure prongs are straight. Again, replace if they're in poor condition.

Plugs on appliances that are connected all the time—refrigerator, lamps, television, radio—should be checked and the prongs cleaned every few months. A file or emery cloth will remove the light coating of oxidation that forms.

Cords should be long enough so that there's no strain on them when plugged in.

Motor-driven appliances should be lubricated at regular intervals.

Home-Buyers Should Know About Loans

A person getting ready to buy a house for the first time often has a lot of erroneous ideas about a mortgage. Realtors, banks, savings and loan associations and other lending agencies are constantly amazed at the fallacies that have crept into the thinking of many potential first-time home purchasers.

Even with all these misconceptions, little damage would be done if every buyer took the time and trouble to read and understand all the papers he signs. But it is a rarity when somebody reads every word of every document placed before him and then—only then—attaches his signature. The general feeling seems to be: "These are regulation forms and papers which everybody signs in order to get a mortgage. Why shouldn't I sign them, too?"

Why, indeed? Yet there are countless numbers of persons every year who discover some facts about their mortgages of which they were unaware. Let there be any misunderstanding, it's not the fault of the banks or agencies which are lending the money. It's simply that there are different kinds of mortgages—and it's up to you to get the type best suited for your needs. You can't blame the lender any more than you can blame the builder because, you paid extra for a seven-room house when you really needed one with only five rooms.

When you're laying out thousands of dollars to buy a house, it is false economy not to use the services of a lawyer for a very small percentage of the total cost of the purchase. He not only will take care of all the details for you, but will protect your interests to see that you get what you want. The important thing, however, is to know what you want so that your wishes can be carried out. If, for instance, you have some idea that you might be able to pay off your mortgage before its normal expiration time, be sure you get the kind of mortgage which permits extra payments of principal. Some mortgages do not.

And how do you find out all this information about mortgages? Contact your bank, a savings and loan association, the Veterans Administration or the Federal Housing Administration BEFORE you select your house and become so intrigued with the idea of living in it that you'll sign anything just so you can move in.

Observe the motor as it runs. If it sparks and/or sounds rough, it may need new motor brushes. This is often the reason the vacuum cleaner starts to sputter.

Motor brushes are pieces of carbon mounted on a spring. On most small appliances they can be found beneath a small, round, threaded bakelite cap. They're inexpensive, should be replaced when they begin to wear. Again, see instructions.

Check belts on the furnace blower and refrigerator fan. Replace if they're frayed or split. Check the tension. There should be a small amount of give when you press down on the belt.

If you get a squealing noise from the belt when the motor is running, it needs lubricating, too. Use a grease stick. Rub it over the belt lightly. This works for auto fan belts as well.

When was the last time you looked at your furnace thermostat? If it doesn't seem to be functioning smoothly, the contact points might need cleaning. Slide a piece of smooth, hard-finish paper between the points. Any further servicing should be left to a professional.

Contact points on the doorbell button need cleaning periodically. Use emery cloth or a small file for this chore. Replace the button if it's worn or badly weathered.

CHOOSE IT FOR FLAVOR.

Adequate Preparedness Boosts Home Enjoyment

ARE YOU the house proof type? Or do you resent owning a house because it is one big colossal chore? Would you enjoy your house if there just weren't so many little problems to keep you from appreciating its virtues?

You can make your house a haven instead of a booby trap by making advance preparations, and using foresight instead of hindsight. Here are 18 questions to test your home preparedness:

1. Are you prepared to fight small fires with the proper equipment — fire extinguishers, a handy bucket? Do you know the telephone number of the fire department?

2. Are tree limbs or trunks rotting, a threat to house and family when laden with ice or hit by high winds? Get them sawed off before they cause disaster.

3. Are you prepared to handle intrusion? Do you know the number of your police department? Are you armed with some protection — dog, gun, etc.?

4. Can you do minor repairs — fix a sink washer or small leaks? If not can you get someone to do it promptly before it becomes a real annoyance?

5. Is your house adequately wired so you do not blow a fuse box when the new portable oven or broiler is installed?

6. Are there indications that your water pressure is low? New pipes may clear up the problem, and prevent a bursting pipe from flooding the cellar.

7. Do all members of the family know the house in case of emergency — the location of fuse box, pump lever, furnace switch, flash lights, candles?

8. Do you know who to call to remove excessive rubbish? Who long.

would you call to pump out a flooded cellar or repair a broken furnace?

9. Do you understand home safety, such as the hazard of entering a flooded cellar and the danger of electrocution?

10. Do you know where you would move the contents of your freezer in the event of power failure? Many stores have food lockers, and some neighbors may have their own power generators. Locate a place now so you can move your frozen goods pronto.

11. Do you own a ladder tall enough to reach the roof or do you know where you could reach one quickly? Suppose Junior should climb out the window to a roof ledge. How would you get to him for rescue?

12. Are there keys to your doors in case you are called away from home suddenly? Do windows lock securely?

13. Are there small leaks in your roof? Get them repaired while the getting is good, before local workmen become tied up on big projects after heavy rainfall.

14. Are securities and insurance policies, bonds and other valuables in a safe or bank vault or stored in another fireproof area? Do you have serial numbers of items not insured?

15. Have you checked for termites recently? Remember that many termites enter homes in fire logs. Keep fire logs out of the house in a wood box if possible, until you are ready to burn them.

The Hudson River is 306 miles long.

The Doctor Says

By EDWIN P. JORDAN, M.D.
Written for NEA Service

"A young man from a large family has a brother and sister who take epileptic spells quite often," a reader says.

"He himself has never taken any and I wonder if it would be wise for him to marry? Would it be possible for his children to be epileptic since this seems to run in his family?"

There are reasons for believing that epilepsy is an hereditary disease and runs in families to a certain degree. However, this does not mean the children of epileptic parents (or brothers or sisters of those who have epilepsy) should never marry or that their children will always develop the disease.

The decision on marriage must always be made on an individual basis. Furthermore, doubt on the family pattern of epilepsy has been raised by two Baltimore physicians. They feel that it is more closely associated with complications before, during and just after birth than it is with heredity.

Also, an instrument called the

electroencephalograph, which measures the brain waves, is extremely useful. In epilepsy these waves differ from normal and give important information on the severity of the disease. This test can also be taken on brothers or sisters of epileptics.

What are the chances that a person with epilepsy will have an epileptic child?

The family histories of nearly 2,000 victims of epilepsy were studied in an attempt to answer this question. These 2,000 patients had over 12,000 parents, brothers and sisters and children. Of the 12,000 only about one in 40 had a history of more than one seizure.

On the average, therefore, a person with epilepsy could expect one child out of 40 to have the disease. In other words, any given child of an epileptic parent has 39 chances out of 40 of being normal so far as epilepsy is concerned. However, even this chance of having epilepsy is about five times that which would be expected in the general population.

In the light of what we know now, therefore, marriage with or without children is not necessarily to be shunned because epileptic seizures have been present in an individual or his family.

With the help of the history or past seizures, the family history of epilepsy and the results of the electroencephalograph, the physician is able to give a rough estimate on the chances that any given child of a marriage would be subject to seizures.

NEW NON-FICTION BOOKS

The Great Age of Discovery, by Paul S. Herrmann. A combination of popular and scholarly coverage of the great explorers who opened new routes and brought back much information about this globe. The author of Conquest by Man begins with Columbus, follows the others such as Da Gama, Magellan; Cook in the South Seas, and ends with Stanley in Africa.

Airways of America, ed. by Poyntz Tyler. A useful and interesting collection of articles from many sources about America's airways, the companies, the administration of their control, the planes themselves, including the jets, the complications of the crowded skies.

The Roy Campanella Story, by Milton J. Shapiro. The inspiring story of one of baseball's greats, his trials to become an important figure in the major leagues, and his heroic fight against paralysis since his accident.

Hannibal, by Harold Lamb. Another volume of history presented the easy way by an author who has made many areas of history very palatable: Ivan the Terrible, Genghis Khan, The Crusades, Tamerlane, Charlemagne, and now Hannibal, the great Carthaginian general who almost conquered Rome.

Leyte, June 1944-January, 1945, by Samuel Eliot Morison. This is v. 12 of the author's very readable naval history of World War II.

The Three Edwards, by Thomas Bertram Costain. The third volume in the author's history of England "as a novelist would write it." The three kings of England, Edward I, II, III stand out in the pageant of English history, two for their courage and force as strong kings, one as a very weak king.

REFERENCE BOOKS

Who's Who in the Midwest, by Who's Who in America. Just how valuable this volume is going to be we haven't decided. So far we haven't found any Dixon people. The ones we checked on were not in it and there was no geographical list to help in the search.

Illinois Blue Book, 1957-58, comp. by Secretary of State's Office. This poorly organized book is nevertheless a most important reference book. We keep it at the desk to answer the many questions about Illinois.

NEW FICTION

Black Mail, by Doris Miles Disney. A new mystery.

Rescue Dog of the High Pass, by Jim Kjelgaard. A story of the beginnings of dogs as rescuers of lost travelers in the Alps. Franz Halle's dog, Caesar, was the first dog to help the monks of St. Bernard.

Money Monitor Friend to Man

By BRUCE BISSAT

WASHINGTON — (NEA) — Joseph Campbell, Comptroller General of the United States, doesn't fit the standard image of the dedicated accountant as a musty sort with a pencil behind his ear.

At 58 he's a warm-voiced, solidly constructed man with a sailing enthusiast's deep sunburn and the vigor that comes from wielding a squash racket against often youthful competition three or four times a week the year round.

As head of the General Accounting Office, he's the chief watchdog for Congress on how the federal establishment spends its money. He belongs to a select company. Only four men have held the job since the office was created in 1921.

Congress wanted the job free of influence. So it made the term 15 years, with no repeats. The president appoints the comptroller general, subject to Senate confirmation. But he can't toss his appointee out. Only Congress can do that — either by impeachment or joint resolution.

And, though the comptroller is the lawmakers' agent, he's also expected to stand above the political tides on Capitol Hill.

Most of the time he's out of the limelight. Only rarely does he get into the glare, as recently when Campbell's office locked horns with the Air Force over the issue of getting a look (it didn't) at a department report detailing delays and other alleged shortcomings in the Air Force missile program.

In symbolic detachment, the GAO's block-long limestone fortress sits apart from most federal buildings here. A certain isolation is both essential and inescapable for Campbell's army of 5,000. They're like baseball umpires who can't mix with the ballplayers.

Campbell's crew includes 2,000 investigating auditors who crawl all over the government's books in Washington, around the nation and in Europe and Japan.

The GAO sends Congress some pretty sharp-tongued reports on its findings. But its whole effort is to avoid that. And it doesn't want its representatives golfing and bridging with government people. What it does seek is a cooperative approach that will nip a lot of difficulties in the bud.

Mostly, that's what it gets. Un-

nard Hospice. The name of the hospice has been given to the dogs themselves.

Final Exposure, by Paul H. Mansfield. Another mystery.

Gideon's Month, by J. J. Maric, pseud. of John Creasey.

—Perhaps a note about mysteries because there are so many to select from, but westerns are few and most of them of inferior quality. We try to keep both fans happy.

NEW PAPERBACKS

Because there are so many excellent books coming out in "soft" covers we are taking advantage of them and adding to our collection many which we could not otherwise buy. Every major publisher has a list of their own books in paper covers; many of them are of sufficient strength to stand considerable wear.

Here is listed an extensive Abrams' are library published in small books with colored plates of varying quality but most are excellent. Included are: Braque, Botticelli, Bruegel, Cezanne, Chagall, Courbet, Degas, Dufy, El Greco, Expressionists, Flower Painting, French Impressionists, Gauguin, Goya, Klee, Manet, Matisse, Michelangelo, Modigliani, Monet, Picasso, Pissarro, Rembrandt, Renoir, Rouault, Rousseau, Rubens, Toulouse, Utrillo, Van Gogh, Velazquez, and Vlaminck.

Following are a number of other paperbacked books on a wide variety of subjects from many publishers:

Tables for Statisticians, by Herbert Arklin.

Statistical Methods, by H. Arklin.

Economic History of the U.S., by F. G. Walett.

Law of Juvenile Delinquency, the Laws of the 48 States, by Susan Frederick B.

Human Types, an Introduction to Social Anthropology, by Raymond Firth.

Theory of Evolution, by J. Maynard Smith.

Roses, by F. Fairbrother.

Touch Typewriting for All, by John Comstock Evans.

Shorthand for All, by J. C. Evans.

An Outline of European Architecture, by Nikolaus Pevsner.

An Introduction to Modern Architecture, by J. M. Richards.

The Enduring Art of Japan, by Langdon Warner.

Chinese Art, by William Willets, 2v.

American Skyline, the Growth and Form of Our Cities, by Christopher Rummard and H. H. Reed.

Italian Painters of the Renaissance, by Bernard Berenson.

Selected Writings, of Juan Ramon Jimenez.

Ruth Millet

Once a wife has let a husband develop the easy-chair-every-evening habit, it's hard to break him of it.

A wife writes: "My husband works long hours for six days a week and on Sundays he doesn't like to visit friends or have any one visit us.

"This I can understand, because he wants to rest and he is also tired of talking and seeing people. What I can't understand is his not wanting to take me out to dinner and the movies at least on our wedding anniversary.

"We went out about three times last year. That included a visit to a friend's house on a Saturday night, I don't think I'm being over-demanding to feel that we should go out one night a week, because a wife comes back from an evening out with a brighter outlook on life.

"As I know, nagging will get me nowhere and I want him to take me out because he wants to. Would you write something in the paper that might help me?"

I don't know any magic words that would make a stay-at-home husband WANT to take his wife out to dinner and to a movie once a week.

But if your husband happens to read this particular column—you can always fold the paper so that he can't miss it — I might be able to persuade him that he SHOULD get out of the house more than three times a year.

Listen, Mister: A wife whose husband never takes her out for an evening's fun and companionship goes stale on the job. And a marriage that isn't brightened by the companionship of friends, some social life, and by getting out and going places together grows mighty dull, especially for the wife who is at home all day and naturally doesn't want to stay at home every evening, too.

Just because a man works hard all day doesn't mean there's no way for him to relax besides sitting in his easy chair until he falls asleep every night. Recreation is also relaxing.

Why not surprise your wife this evening by saying out of a clear, blue sky, "How about a movie?" Her pleasure at actually having you suggest it may even warm your heart enough so that next week you'll want to take her out to dinner, too.

Mrs. Conte Abandons TV Battle

By BOB THOMAS

AP Movie-TV Writer

HOLLYWOOD — Mrs. John Conte finally threw in the towel this week on her effort to revive TV's Matinee Theater.

It was considered foolhardy of her to challenge the whole system of television programming. But there are some who think it was pretty brave, too.

Mrs. Conte swung into action when NBC canceled Matinee Theater, a valiant effort to bring hour-long quality dramas in color to daytime TV. The network claimed it had lost millions on the series, which was sustained as a promotion for sales of color sets. Mrs. Conte's husband had emceed the show through its two-year history.

Much to the network's dismay, Mrs. Conte announced formation of a foundation for the preservation of Matinee Theater. Her goal: collection of 5 million dollars to return the show to the air.

Her drive drew considerable comment from the press and \$312,670 from citizens who were eager to see classic programs return to the air day TV scene. But she gave up this week. Why?

"Because I found myself working day and night for the drive and various chairmen throughout the country were doing the same, but we couldn't succeed," she explained.

TV Copy Rejected

"The reason was that we couldn't get our message across. We had done a wonderful job on direct mail appeal and door-to-door, but we were unable to buy commercial time to advertise on TV. NBC told us our copy was unacceptable."

The spheroid was released here Friday by a five-man team from General Mills, Inc., of Minneapolis to study cosmic data for the Navy. It is unmanned.

A member of the launching crew, Tom Pawpas, said larger balloons have been built, but this is the biggest to be sent up. He said it was floating smoothly at an altitude of 25 miles.

The bag is 305 feet long and 223 feet in diameter. It was filled with more than four-million cubic feet of helium and carried 250 pounds of instruments.

Killer Loses Third Attempt for Life

CHICAGO — A 33-year-old man, twice convicted of the murder of a Chicago detective, Friday lost his bid for a third trial.

Judge Daniel A. Covelli of Superior Court set March 20 for the execution of James Dukes, whose death a jury decreed May 25. A 1956 conviction of the slaying of Detective John Blyth was set aside by the Illinois Supreme Court, which ordered a second trial.

Blyth was shot to death June 10, 1956, while he chased Dukes after a shooting in which two church workers were wounded. Dukes' lawyer said he again would appeal to the Supreme Court.

Thief Selects Wrong Target

NORWALK, Calif. — Authorities said Feliciano Euribe broke into 10 cars in a parking lot and took everything he found of value.

Then Dep. Sheriff Thomas Vetter arrested him and Euribe found out exactly where he was. Vetter had just come off duty Friday and the parking lot was behind the sheriff's Norwalk substation.

All of the cars belonged to sheriff's officers.

Dividend Time

3% . . . INSURED SAFE

Once again, as it has each six months for more than 70 years, DIXON LOAN and BUILDING ASSOCIATION is paying a regular Semi-Annual Dividend.

3% . . . INSURED SAFE

The Dividend declared for November, 1958, is the largest of its kind ever paid by the Association. More persons than ever before will participate in this 143rd distribution of our semi-annual profits.

3% . . . INSURED SAFE

NOW is the time to open an account here, so that next time it's DIVIDEND TIME at Dixon Loan and Building Association, you will be among those who benefit.

Money saved by
DEC. 15th
will earn a full
six-months dividend
on May 31, 1959.

HELPING HUNDREDS TO SAVE THOUSANDS

Things Dixon Talked About

10 YEARS AGO, 1948
Henry Jensen and son returned home yesterday from the Northern Wisconsin woods, each with a fine buck deer.

Mr. and Mrs. Paul Fry and Mr. and Mrs. Clark Hess and William Saunders are enroute to California where they will witness the Notre Dame-Southern California football game.

25 YEARS AGO, 1933
George Farley of Sycamore, formerly of Harmon, has taken over the Clarence Gibson barber shop in Dementtown.

Mr. and Mrs. George Edwards and Mr. and Mrs. John Lahey will motor to Rochelle to spend Thanksgiving day.

35 YEARS AGO, 1923
Dixon High School's football

team defeated Sterling in their annual Thanksgiving day game by a score of 13-0.

Miss Frances Ackert, who teaches in the Sherwood School of Music in Chicago, came home for the Thanksgiving holiday.

50 YEARS AGO, 1908
Orville Remley is the new employee in the dry goods department of the I. B. Countryman store.

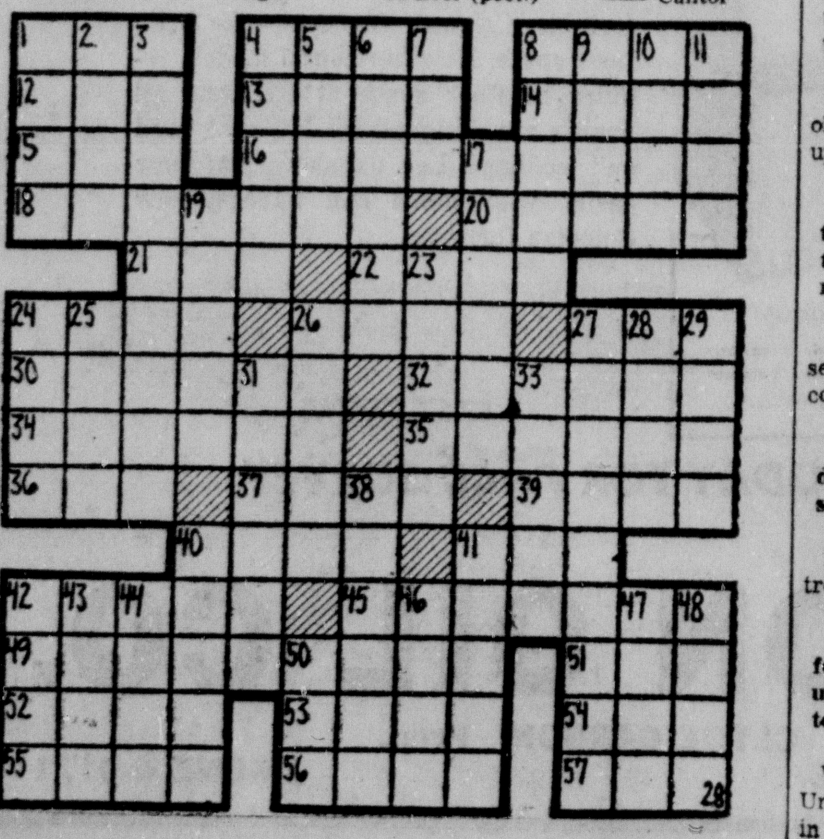

On a cold day like this, men love to gather in some of the stores and especially where there is a phonograph. This afternoon about a dozen gentlemen gathered at the John Moyer store and heard an excellent program of choice music furnished by the Victor machine. The double records were used. By the way, these new double records are becoming very popular.

Army-Navy Commander-in-Chief Is Neutral; Sure He Is

AUGUSTA, Ga. (AP) — As commander-in-chief of all the armed forces, President Eisenhower wished both Army and Navy good luck in their football game today. But as an Army man—

Well, as an Army man who played football at West Point years ago, the President made it plain this impartiality is for the birds.

The vacationing Eisenhower sent off two telegrams this morning—one to Navy Coach Eddie Ederlatz, the other to Army Coach Earl (Red) Blaik. The first two sentences were identical:

"In an Army-Navy football game anything can happen. Season records mean nothing—the same applies to the so-called odds."

In his wire to Ederlatz, the President added in the best manner of a neutralist:

"Please extend my best wishes to all the members of your squad. I know they will play in the traditional Navy style. Good luck to all of your team."

In the telegram to Blaik, Eisenhower addressed him as "Dear Red" and added after the first two sentences:

"Officially and as President, I wish both squads the best of luck. But as a West Pointer of the class

of 1915, I'll be keeping my fingers crossed. My best wishes to every man on your squad."

Eisenhower arranged to watch the game, being played in Philadelphia, on television in the comfort of his vacation residence at the Augusta National Golf Club.

In order to do so and get in his daily round of golf, too, he toured the course during the morning.

MISS NORINE McNICHOLS, Chicago, blind philosopher and humorist, will address the Dixon Lions Club Tuesday at the Nachusa House. Her topic will be "What Your Ladies Do With Their Leisure Time."

Airlines Brace for Home Surge

By The Associated Press

The country's airlines, their carrying capacity crippled by strikes, braced themselves today for an expected surge of passengers homeward bound after the long Thanksgiving weekend.

Eastern and Trans World Airlines, third and fourth largest in the nation in passenger miles flown annually, have been grounded by walkouts. The nation's largest line, American, still is flying under the shadow of a threatened strike that was delayed by a court order.

Some 6,700 members of the International Assn. of Machinists struck TWA a week ago Friday, and the line's 200 passenger planes were grounded Monday.

Also Monday, 550 members of the Flight Engineers International Assn. and 5,500 JAM mechanics struck Eastern, grounding 188 planes.

At American Airlines, the company Friday night offered to sit down "anywhere and anytime" with the Air Line Pilots Assn. to try to settle differences without a strike. A union spokesman said the company offer sounded like "a public relations maneuver."

Deep Snow

(Continued on Page 6)

from southwestern Ohio to central New York State and into New England.

It was cold, too, not only in the storm belt but in the snow-covered sections of the country from the Rockies through the Midwest.

South Frosty

The South also was frosty as the icy air plunged into the Gulf Coast and temperatures dipped to near freezing and lower along the middle Gulf Coast.

Snow fell on Alabama as the southern edge of the storm, with near freezing temperatures, advanced into the northern part of the state late Friday.

Warm air clung to the Atlantic Coast region during the night. But it was retreating rapidly as the cold air moved southeastward across the Appalachians.

Temperatures were near 70 late Friday night along the Carolina coast. But at Asheville, in western North Carolina, it was chilly with snow flurries and readings in the 20s.

It was below zero again in eastern North Dakota and northern Minnesota. Below freezing readings were reported southward into central sections of Texas and Louisiana. They were in the teens in northern Arkansas.

It's Youth

(Continued from page 1)

shown by Gerald Anderson of Leeland, Ill.

The champion wether lamb carcass was a light Southdown shown by the University of Kentucky. Reserve was also a lightweight Southdown shown by Ohio State University.

More than \$100,000 in cash prizes will be offered during the exposition which runs until Dec. 6.

Card of Thanks

Thanks everyone! for the kindnesses shown me while I was a patient at KSB hospital. Your kindness meant so much to me. And the appreciation for the cards, flowers and calls can never be stressed enough. A special thanks to Dr. Edwards Sr., nurses, Pastors Curran, Harum and Lechner. Fred Bott.

We wish to express our thanks to all our friends, neighbors and relatives for the beautiful flowers, food, cards, use of cars and other acts of kindness during our recent bereavement in the loss of our loved one.

George VanNess family.

Kansas Youth Kills Dad, Mom, Sister

WOLCOTT, Kan. (AP)—A strapping sophomore from the University of Kansas shot and killed his parents and his sister Friday night. Surrendering, he insisted he didn't know why he did it.

Lowell Lee Andrews, 18, the sophomore, stands 6 feet 2 and weighs 200.

"I'm not sorry, and I'm not glad I did it," he told a newsman. I just don't know why I did it."

Shot with two weapons while they were in the living room of their home in this hamlet two miles northwest of Kansas City, Kan., were Andrews' parents, William L. Andrews, 50, his wife, Opal, 41; and young Andrews' sister, Jennie Marie, 20.

November Farm Price Index Highest Since '54

SPRINGFIELD (AP)—Farm commodity prices in Illinois for the month ending Nov. 15 were the highest for that 30-day period since 1954, the index prepared by the State-Federal Agriculture Department has disclosed.

The index Friday was three per cent above the price report for the same 30-day period in 1957.

However, the price report showed a two per cent drop in prices paid to farmers compared with the previous month—ending Oct. 15.

Compared with the month ended Oct. 15, corn was down 8 cents to 94 cents a bushel, soybeans at \$1.96 were off 2 cents and wheat was the same at \$1.72.

Hogs were \$18.10, down 50 cents a hundred and beef cattle fell 10 cents to \$23.20.

Higher prices were reported for oats, milk, butterfat and eggs compared to the Oct. 15 month.

Pilot Lands Big Plane On Foam

BOSTON (AP)—A calm United Air Lines captain landed a big DC6 plane on a blanket of foam Friday night after circling Logan International Airport for an hour while his flight engineer manhandled the wheels into landing position.

The plane, en route from Chicago, skipped a scheduled landing at Hartford, Conn., when the hydraulic system operating the landing gear failed to function.

There were 41 aboard, including the crew of four with Capt. Loras Diedrich, 37, Winfield, Ill., in command.

He brought the four-engine plane down smoothly in a three-inch thick blanket of foam spread by emergency crews for a slide in case the plane made a belly landing.

Passengers agreed there was no panic or obvious fright in the passenger compartment.

In the plane Flight Engineer Raymond Hackett, Chicago, moved a mountain of baggage and ripped up floor boards to get into the hydraulic pit where the wheel machinery is located.

He said he found faulty wires caused the trouble, but didn't have the equipment to make repairs in the air.

"I switched onto manual operation," he said. "As we circled Logan I lowered the wheels manually, using my hands and feet to do so."

Three Killed In Indiana Tollway Crash

GARY, Ind. (AP)—A three-car pileup on the Northern Indiana Toll Road in Gary has claimed three lives and injured five others, two of them critically.

The latest victim of the crash Friday, Clifton Leslie, 20, died Friday night in Methodist Hospital.

Two men were killed in the crash. They were Alfred B. Johnson, 48, Kenosha, Wis., and Louis Krejcha Jr., 44, Appleton, Wis.

Listed in critical condition today at Methodist were Anthony J. Drewak, 41, Racine, Wis., and Charles E. Sprinkle, 22, of Chicago.

State police said Sprinkle, driving one car, apparently lost control on an icy spot, swerved into the other lane and struck the auto driven by Johnson head-on.

The third car, driven by Arthur Kretschmer, plowed into the rear of Johnson's auto, police said.

Tot Drowns

CHICAGO (AP)—A 7-year-old girl drowned Friday while attending a swimming party at the North Park College pool on the North Side.

Authorities said little Patricia Heyman, daughter of Howard and Violet Heyman, apparently sank beneath the surface at the shallow end of the pool while trying to teach herself to swim. The victim was a member of the Immanuel Mission Covenant Church, which sponsored the swimming party.

107 YEARS OLD AND STILL WORKING—Sylvester Melvin, who is 107 years old today, sits behind his desk at the Greene County Mutual Fire Insurance Co., in Greenfield, Ill., where he has been secretary for 59 years. Melvin recalls the covered wagons heading for the West, Civil War carpet baggers, and border raiders seeking to elude Missouri law. (AP Photo)

A Friend of U. S. Grant

Illinois Man Marks 107th Birthday; Still Working

GREENFIELD (AP)—Sylvester Melvin appears to have a sure-fire formula for longevity.

Melvin is 107 years old today. "Want to live as long as I have? Just keep from dying," he grinned from behind his desk at the Greene County Mutual Fire Insurance Co., where he has been secretary for 59 years.

Melvin was born on a Greene County farm in 1851, and although he never wandered far, saw much of history sweep past his door.

He recalls covered wagons heading for St. Louis, Independence and points west, Civil War carpet-baggers, and border raiders seeking to elude Missouri law.

As a young man, he did venture to Philadelphia for the Centennial Exposition of 1876. There he witnessed the first public demonstration of Alexander Graham Bell's new device, the telephone.

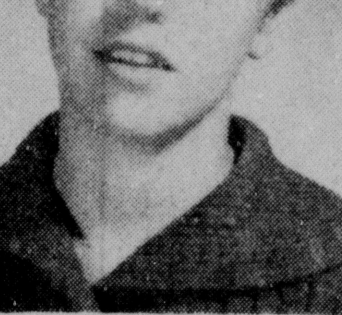

At 107, it's easy to be the oldest in most things—but Melvin does like to say he is the oldest Farm Bureau member in the country and the oldest living graduate of Illinois Wesleyan University.

Melvin knew Ulysses S. Grant well, was one of the first men in the country to breed Angus cattle and lived to see Greene County farm land jump in price from \$1.25 an acre to more than \$300.

An every-Sunday Methodist, he eschews tobacco and strong drink as plain nuisances but still eats rib-sticking meals.

Regrets are few, but he wishes he had continued his education. His wife died at 98 and two sons are dead. He lives with a daughter.

Miss Morrissey Presented Award As Best Actress

MARY LOU MORRISSEY

AMBOY (Special)—Miss Mary Lou Morrissey, a member of the Amboy High School senior class play, was awarded the title of "Best Actress" for her portrayal of a dual role in the play, "Curtain Going Up."

Miss Morrissey was chosen by judges from the audience and was awarded the title at the close of the play. She was presented a gift by the play cast.

Frank Babich, drama coach of Amboy High School, directed the play.

Student directors were Dianne Dennie and Joyce Spencer.

Lana's 'Friend' Left \$50 Cash, \$224 in Property

LOS ANGELES (AP)—The estate of John Stompanato, who was stabbed to death April 4 by Lana Turner's daughter, consists of \$50.10 in cash and personal effects valued at \$224.

Superior Court directed Friday that these assets be given to Stompanato's son John, 10, who lives with his mother in Hammond, Ind.

Awaiting trial is a \$500,000-suit filed in the boy's name against Miss Turner; her daughter, Cheryl Crane; and Cheryl's father, restaurant owner Steve Crane.

Lodges

MASONIC BREAKFAST
Friendship Lodge AF&AM, is sponsoring a "Get Acquainted" breakfast Sunday from 6 to 10 a.m. in the Masonic Temple.

Theodore R. Maves, W.M., said the breakfast is for members of all Masonic bodies and their families, with all branches of Masonic orders participating. There will be a free-will offering. Tickets are available from the heads of all branches.

KSB Hospital

Admitted: Mrs. Charlotte Naylor, Dixon; Mrs. Ann Buhler, Dixon; George Hendress, Remington, Ind.; Mrs. Nellie Grygiel, Dixon; Vernon Meyer, Polo; Lewis Drummond, Dixon; Mary Belcher, Dixon; Carol Gormely, Oregon; Arland Ayres, Amboy.

Discharges: Mrs. Doris Sylvius, Polo; George Heide, Milledgeville; Mrs. Merriam Kennedy, Dixon; Mary Belcher, Dixon; Mary McFarland, Sterling.

Births: Mr. and Mrs. Howard Caton, Dixon, a son, Nov. 28.

Christmas Auction Postponed a Week

The Jaycee-ettes annual Christmas auction originally scheduled for Dec. 4 has been postponed until Dec. 11, because of a joint meeting with the Junior Chamber of Commerce Tuesday night.

The auction will be held at the home of Mrs. Harold Rhodes.

Claim Success in Weather Control

TOKYO (AP)—Peiping Radio claimed today successful experiments in weather control have been made during the past week over Nanking, former capital of China.

The broadcast said a special plane had cleared a circular space in a cloudy sky Wednesday measuring about 2,100 feet wide and 19,500 feet long.

The following day the plane circled in a clear sky. A long, narrow strip of white cloud appeared seven minutes later, the broadcast said. In 10 minutes the strip was more than 3,000 feet wide and about 4½ miles long.

The broadcast did not give details on how or why the cloud formed or dispersed.

Secret Cake for Sir Winston, 84

LONDON (AP)—A London bakery kept the finishing touches to a surprise birthday cake for a distinguished gentleman today.

The design of the creation was kept a closely guarded secret—just as it has been for Sir Winston Churchill's last 20 birthdays.

This year's cake for Britain's wartime leader, who celebrates his 84th birthday Sunday, is different from all the rest, according to intelligence leaks.

It will be unveiled at a family tea party at Chartwell, Churchill's country home in Kent.

Corn drying is practical and profitable for Illinois farmers, say University of Illinois agricultural engineers.

Deaths and Funerals

George R. Peach

Word has been received here of the death in Seattle, Wash., of George R. Peach, 74, a former Dixon resident.

Mr. Peach, a former salesman for the Pacific Telephone & Telegraph Co., Seattle, for 38 years, retired in 1949.

He was born in Allegheny, Pa., and attended Dixon High School, located in the building now housing South Central School. He played on the 1901 DHS football team, of which only two members are now living. They are Jake Snyder, superintendent of Oakwood Cemetery, and former Circuit Judge George C. Dixon.

He attended the University of Kentucky and was graduated from Ohio State University. He played football and coached for both school.

Mr. Peach moved to Bremerton, Wash., in 1908 and to Seattle the following year.

Surviving are his wife, Beatrice; a son, Ted G. Peach, Seattle, and a granddaughter.

6 Area Men Are Inducted Into Service

OREGON (Special)—Six area men recently inducted into the Army by Selective Service Board No. 178 are as follows:

Donald E. Shull, Oregon; Gregory B. Ives, Byron; Michael H. McNett, Oregon; Frank P. Castor, Rochelle; James L. Weber, Polo; and Everett A. Horst, Mt. Morris. Shull, McNett, Ives, Castor and Weber were all volunteers for immediate induction.

The December induction call is scheduled for Monday for six men. There will be no pre-induction physical examination call during December.

Late Church Notices

FIRST CHURCH OF CHRIST, SCIENTIST
321 Second St.

11 a. m., subject: "Ancient and Modern Necromancy, Alias Mesmerism and Hypnotism. Denounced."

Wednesday, 8 p. m.—Evening service.

Reading Room, 108 Hennepin Ave., open daily except Sundays and holidays, noon until 4 p. m., Friday 7 to 9 p. m.

Children's room at same address open during Sunday service.

Jury Decides Rochelle Woman's Death Accidental

ROCHELLE (Special)—The death of Mrs. Flora Berve, 67, 602 Eighth St., who was killed here Thursday morning when she was hit by a freight train, was ruled accidental Friday at an inquest conducted by Ogle County Coroner Morris Roe, Forreston.

Mrs. Berve died of a skull fracture when she was thrown against a loading platform by the freight train as she crossed the railroad tracks to board a passenger train.

She was born Feb. 10, 1891, in Rochester, N.Y., the daughter of Fred and Elizabeth Trauxel Wenger. She came to this area with her family and resided in Freeport for several years. She operated a beauty shop there until 1933 when she moved to Rochelle.

Survivors are two sisters, Mrs. Freida Buffe, Oak Park, and Mrs. Clara Dennis, Dubuque, Iowa.

Services will be held at 2 p. m. Monday in Unger Funeral Home with the Rev. Robert Crocker, pastor of Rochelle Methodist Church, officiating. Burial will be in Lawnridge Cemetery.

Friends may call in the funeral home Sunday afternoon and evening.

302 Dead In Holiday Accidents

By The Associated Press
Traffic 232
Fires 24
Miscellaneous 46
Total 302

Snow and ice-covered streets added to traffic hazards today and boosted the toll in accident deaths over the Thanksgiving weekend.

Several crashes on the slippery highways were reported as the season's first major storm swirled from the Midwest into areas east of the Mississippi River.

The hazardous driving conditions, however, appeared to have cut down the volume of traffic on highways, especially in the snow-covered regions.

The Thanksgiving weekend also is not regarded as a period of extra heavy traffic such as on other major holidays.

The number of dead in highway accidents since the start of the weekend Thanksgiving at 6 p. m.

Illinois Deaths

Deaths on Illinois highways and streets rose to 11 today amid warnings of treacherous road conditions produced by heavy snows in some areas. Accidental deaths of other types brought the Thanksgiving weekend toll so far to 18.

Forecast of temperatures in the mid-20s for most of the state today indicated little prospect of improved road conditions.

Especially hazardous driving could be expected in the south and eastern parts of the state, the State Highway Department warned.

Wednesday (local time) showed the total running about normally or slightly below for the corresponding period at this time of year. The count is to continue until midnight Sunday.

The National Safety Council did not make a pre-holiday estimate of the traffic toll. It said, however, that 470 deaths could be expected in a similar 102-hour non-holiday period.

An Associated Press survey covering the 102-hour period from 6 p. m. Wednesday, Nov. 12 to midnight Sunday, Nov. 16 showed a traffic death toll of 394. Other violent deaths included 32 in fires and 121 from miscellaneous accidents.

Court Kills Louisiana Interracial Ban Clemson May Land Sugar Bowl Berth

NEW ORLEANS (AP)—The Sugar Bowl, freed from a ban on interracial sports, still was expected to choose Clemson today to face Louisiana State in the Jan. 1 game.

A federal court ruling Friday knocked out Louisiana's 1956 law banning competition between white and Negro athletes.

However, a ruling by the LSU Board of Supervisors bans the team from playing integrated teams not only in Louisiana but also outside the state.

The federal court ruling did not touch a phase of the law which bans segregated seating at sports events in the state. That was expected to rule out the possibility of getting eighth-ranked Air Force which was expected to go to the Cotton Bowl anyway.

The Sugar Bowl, however, does not require racial identification before a ticket is bought. A few years ago it removed a stipulation printed on most of its tickets that they could be used "only by the Caucasian race."

Navy played in the Sugar Bowl in 1955 when segregated seating was enforced and before the law banning interracial athletics went into effect.

The Defense Department declined comment on the segregation ruling. The Army previously said it would not accept any bowl invitation from anyone.

The segregation ruling came in a case filed by Negro boxer Joe Dorsey who contended the law was jeopardizing his career. The decision was signed by Judge John Minor Wisdom of the U.S. Fifth Circuit Court of Appeals and U.S. District Judges Herbert Christenberry and J. Skelly Wright.

Cooper Defeats Buchholz, Wins Aussie-Net Title

SYDNEY (AP)—Wimbledon and U.S. champion Ashley Cooper of Australia halted the sensational winning streak of 18-year-old Earl Buchholz, of St. Louis, today by winning the New South Wales tennis championship 6-0, 6-1, 7-6, 6-2. Obviously nervous and well below the form which marked his earlier victories over teammate Alex Olmedo and Australians Mal Anderson and Roy Emerson, the young American junior proved no match for the hard hitting Aussie. Buchholz was able to win only 10 points in the first set and 12 in the second before he mustered a brief but shortlived rally which won him the third.

The American camp was not heartened over the setback. "We are very proud of the way Buchholz has played all week," said Perry Jones, U.S. Davis Cup captain. "He was up against the world's best amateur in Cooper and he was playing his first important final."

Fight Results

By The Associated Press
New York — Mike De John, 202½, Syracuse, N.Y., outpointed Willie Besmanoff, 201, Milwaukee, 10.

Kanab, Utah — Lamar Clark, 182, West Jordan, Utah, knocked out Hal Crump, 194, Butte, Mont., 2.

DeJohn Says He Requires More Action

NEW YORK (AP)—Mike DeJohn says all he needs is action to make him a top contender for the heavyweight title. And he may get that soon.

The tall, lankadalsical Syracuse fighter squeezed out a close but unanimous 10-round decision over stocky Willie Besmanoff Friday night that put him in line for two high level scraps.

Promoter Norm Rothschild wants to match him with Zora Folley at Syracuse in January and the International Boxing Club offered him a shot at the winner of the Pat McMurry-Nino Valdes Dec. 19 fight at Madison Square Garden for February.

"I'll take them both if I can work it out," said the 6-3, 202½ pound DeJohn. "I know I need plenty of work to keep in top shape and give me the fighting edge I need. This fight with Besmanoff was only the fourth for me this year and the first since August 15 when I lost that split decision to Valdes."

"I think I can go all the way and make a lot of trouble for Patterson (heavyweight champion Flody Patterson) if I ever get the chance."

Mike, however, was no ball of fire against Besmanoff at the Garden. Willi, who now fights out of Milwaukee, wasn't much to rave about either. Maybe it was their contrasting styles.

AF Coach Gets New Contract

COLORADO SPRINGS, Colo. (AP)—Coach Ben Martin has been rewarded with a new 5-year contract and a healthy pay raise for his success this season with the Air Force Academy football team.

Martin came to the Academy last winter from the University of Virginia under a 3-year contract. The Falcons won eight games and tied their ninth—with Iowa. They complete their season Saturday at Boulder against Colorado of the Big Eight Conference.

Col. George Simler, Academy athletic director, wouldn't disclose the details of the new contract but said it included a pay raise.

DHS Will Host Huskies Tonight

FULTON (Special)—"Out of the frying pan and into the fire" — that's the situation the Duke cagers of Dixon High School find themselves in today as they prepare to entertain Harlem High School of Rockford at 8 p.m. tonight in the Dixon gymnasium.

The oft-used phrase was coined again by Fulton head basketball coach Stan Borgman here Friday night after his team had been decisively trimmed by the Dukes, 64-49. Borgman and DHS basketball coach Lyle Bogott were talking about the rough Dixon schedule this weekend and the fact that the Harlem Huskies are a pretty tough ball club. And, as a capsule description, Borgman's remark had a lot of truth to it.

The Husky game is the 1958-59 home opener for Dixon. Leading Harlem this season is a trio of veterans, including 6-7 Charlie Mitchell. The other Harlem lettermen are 5-10 guard Ron Beck and 6-0 forward Dan Genin. The Huskies have already shown their claws this season as they turned back a favored Rochelle team last week, 57-43.

With Flying Colors
The Dukes passed their "frying pan" test with flying colors. They outshot and outscored the taller Steamers all the way—and even when Fulton pulled to within five points of the Dukes early in the fourth quarter, Dixon refused to be rattled and minutes later, the lead was back to a comfortable 13 points.

Chit-chat around courtside prior to the game amounted to the fact that the Dukes would probably look pretty ragged because this was their opening game and it was on the road, away from the friendly home court and the Steamers had already had the advantage of playing one game. The Dukes were ragged all right — for the first 60 seconds. During that time, they threw the ball away once and committed an unnecessary foul. Dixon then called time, had a short confab with Bogott, resumed play—and from that point on, the Dukes played good, steady basketball and they were not to be denied.

The victory was essentially a team victory. And the Dukes did some fine defensive work against the Steamer's version of the triple post with 6-9½ Larry Prims in the key slot. Prims got 15 points for Fulton before he fouled out in the final period, but none of his points came easy as the Dukes usually collapsed two men on him when he got the ball. As a result, the Steamer's little man, Larry Moldermaker and Arky Wiebenga, were forced to carry the offensive load from the outside and this is the way that the Dukes wanted it.

Duke Scoring Attack
Seniors Bob Hargrave and Jim Mortensen led the Duke scoring attack with 21 and 20 points respectively. Hargrave got the Dukes off to a 3-0 lead in the first period and Mortensen, with a deadly jump shot, paced the Dukes in the second and third periods.

By the middle of the third period, the Dukes had built up an 18-point advantage, 42-24, when suddenly, the Steamers banged home 18 points to the Dukes' five and it was beginning to look like Fulton meant business after all. Moldermaker and Wiebenga hit on a pair of one-handers apiece to cut the deficit to five points.

Senior Stu Keeley, doing a fine defensive job on Prims, then scored on a sweeping hook shot that seemed to take a little starch from the Steamer attack. And seconds later, Phil Keeley, playing his first varsity game, sank a jump shot that brought the Duke lead to seven points — and it was all over then for Fulton, and the fans seemed to realize it because the din and clatter that accompanies a rally had diminished to nothing.

In defeating the Steamers (for the second year in a row), the Dukes defeated a club that has the makings of being a fine team. (Fulton has exactly the same team that it had last year when it won 24 and lost 4 with the exception of one forward who was graduated.) But the Steamers just couldn't jell, and their individual stars — Prims, Molderman, Wiebenga — played as individuals and not as a working unit. And that was the difference in the two teams.

Richardson to Miss Tennis Tourney

SYDNEY (AP)—Ham Richardson, suffering recurring reactions from diabetes, today was forced out of next week's Victorian Tennis Championships and placed under a physician's care.

U.S. Davis Cup Capt. Perry Jones emphasized however, that America's number one player is not seriously ill and rest measures are being taken to point him for the Davis Cup interzone and challenge round matches.

Jones said Richardson asked for a rest after his poor showing in the New South Wales Championships during the past week.

The New Orleans star was beaten by Bob Mark of Australia in the singles and was not at his best in doubles.

Fulton Beats Frosh-Sophs Easily, 49-22

FULTON (Special)—The Dixon High School frosh-soph basketball team ran into a tall, capable Fulton frosh-soph team here Friday night and was beaten, 49-22.

It was the season opener for the frosh-sophs. They will now host the Harlem Husky frosh-soph team at 6:30 p. m. tonight in the Dixon High School gymnasium.

The Fulton frosh-soph team has now won both of its starts of the young season. It defeated Clinton, 38-26, for its initial win.

After a low-scoring first period in which Fulton led, 9-4, Dixon's Charles Fichter sank a basket to get DHS to within three points of the Steamers. The winners then ran off two strings of nine straight points each, separated by Al Wilkoff's two-pointer on a jump shot. That made the score 25-8 and it was 27-8 at the end of the first half, minutes later.

Bob Massey and 6-4 Dale Turney led Fulton. Massey had 18 points, Hargrave got the Dukes off to a 3-0 lead in the first period and Turney scored 10.

Bob Wolf and Fichter led the DHS scoring with six points each. Box score (baskets, free throws, total points):

FULTON (49)—Massey, 8-2-18; Smith, 0-3-3; Turney, 4-2-10; McClary, 1-0-2; Woods, 4-2-10; Jones, 1-1-3; Gillman, 1-0-2; Schipper, 0-1-1.

Browns, Colts Shoot For Titles Tomorrow

Early American League Opening Date Scheduled

CHICAGO (AP)—The 1959 American League baseball season will have its earliest start in history and have more night games crammed into its schedule than ever before — 264.

The schedule, released today by League President Will Harridge, kicks off next year's campaign with Baltimore in the traditional presidential opener at Washington on April 9, a Thursday. This gives the season a weekend start instead of the usual Monday or Tuesday launching.

The opener on April 10 is the earliest since 1913, when President Woodrow Wilson tossed out the first ball to the late Clark Griffith, then Washington manager, and touched off the starting round for all clubs.

Harridge said the early start makes way for more open dates and gives the schedule more flexibility for traveling and weather enforced make up games.

The opening round will send Cleveland to Kansas City, Chicago to Detroit and Boston to New York. These three-game series will end with single contests Sunday, April 12. After the April 9 opener, Baltimore remains at Washington but skips the next day and concludes the series with a Sunday double-header.

The 264-night engagements slated tops the previous high of 1958 by 15. Of the 249 on tap this year, a record 241 actually were played. Weather forced out the others.

The Rockets, led by Ken Siebel, handily defeated Mt. Morris, 79-43. Siebel, a senior and the only returning regular of the Rock Falls team that reached the finals of the state tourney last year, scored 32 points, despite a slight favoring of an ankle injured in football last season.

Leading Mt. Morris scorers were Brian Schelling and Gail Rothermel. Each had 12 points.

Jim Brotherhood and Lou Ramirez also scored 12 and 10 points for the winners.

In the frosh-soph game, Rock Falls scored an easy 50-26 victory. It was the first game for both teams.

Box score (baskets, free throws, total points):

MT. MORRIS—Schelling, 5-2-12; Miller, 0-3-3; Rothermel, 5-2-12; Ramey, 2-2-6; Kinsley, 2-4-8; Corbett, 1-0-2.

Bears Must Win; Cards Host Rams

By The Associated Press
You National Football League Eastern Division clubs, particularly Washington, look out Sunday! The Brown gang — Cleveland, Paul and Jimmy — are on the prowl.

This trio, Jimmy the fullback who plays for Paul the coach of the Cleveland Browns, has set its sights on an eighth divisional title in nine years and plans to use the Washington Redskins as a springboard when they get together in Cleveland.

The Browns are a game ahead of the second-place New York Giants and must keep winning lest the Giants catch up before the two meet Dec. 14 in New York. Cleveland has a 7-2 record, New York 6-3.

Play 49ers
The Baltimore Colts also have the same idea in the Western Division. They entertain the San Francisco 49ers in their season home finale and a victory would clinch at least a tie for the Western title.

Baltimore, with a 8-1 record, can go a step further and grab all the marbles if the Chicago Bears, 6-3, fall before the Pittsburgh Steelers in Pittsburgh.

New York meets the Philadelphia Eagles and the Los Angeles Rams play the Cards in Chicago. Detroit defeated Green Bay 24-14 Thanksgiving Day and is idle until next weekend.

Broke Rushing Mark
Jimmy Brown leads the NFL in rushing and every yard he gains establishes a record. Two weeks ago he broke the record formerly held by Eagles blockbuster Steve Van Buren, of 1,146 yards. He now has 1,229 yards.

Baltimore which has lost only to New York, still has two more chances on the West Coast against Los Angeles and the 49ers to put a ribbon on its first divisional title.

Pittsburgh's Steelers, sparked by quarterback Bobby Layne, has a four-game winning streak that has carried them to third place in the Eastern Division. The Bears, paying their first visit to Pittsburgh since 1947, have added Rudy Bukich, ex-Redskin, to a quarterback crew that includes Zeke Bratkowski, Ed Brown and George Blanda.

and touched off the starting round for all clubs.

Blue Raiders Are Defeated By Princeton

PRINCETON (Special)—Walnut ran into a tough Princeton team here Friday night and was defeated, 54-41, for its first setback of the season.

Walnut is now 1-1 and Princeton remains unbeaten in three games. Princeton—led by 6-4 Vern Magnuson and 6-4 Bill Howard—took the lead at the start of the game and held it all the way. The winners led by 17 points midway in the final period. Magnuson had 16 points and Howard 13. John Siterly also scored 13 for Princeton.

Gary Eckberg got 16 points in a losing cause for the Blue Raiders, Larry Brandenburg had nine.

In the preliminary game, Princeton defeated the Walnut frosh-soph team 52-33. The loss was the second in a row for Walnut.

Box score (baskets, free throws, total points):

WALNUT—Lalusa, 2-3-8; James, 1-1-3; Brandenburg, 4-1-9; Wallace, 1-1-3; Eckberg, 4-8-16; Perizo, 1-0-2; Fink, 0-0-0; Edson, 0-0-0.

LEGAL

INVITATION FOR BIDS

Sealed bids for the sale of the Secretary of State of the State of Illinois, of twenty-two items of small equipment will be received by the Office of the Secretary of State, Purchasing Division, 219 State Capitol Building, Springfield, Illinois on Monday, December 15, 1958 at 10:30 a.m., Central Standard Time.

Proposal documents including detailed instructions and specifications may be obtained by qualified bidders from Francis H. Gillen, Purchasing Clerk, 219 State Capitol Building, Springfield, Illinois.

Items upon which bids are submitted must conform to specifications.

State of Illinois
CHARLES F. CARPENTIER
Secretary of State
Nov. 29, Dec. 4, 9, 1958.

LEGAL

UNION DRAINAGE DISTRICT NO. ONE, HAMILTON AND EAST GROVE TOWNSHIPS, LEE COUNTY, ILLINOIS.

NOTICE TO CONTRACTORS FOR DRAINAGE WORK.

1. Sealed bids will be received by the undersigned Drainage Commissioners at the office of Sterling D. Schrock, County Clerk, of Lee County, Illinois, and Clerk of said Drainage District, at the Court House at Dixon, Illinois, until the hour of 10:00 o'clock a.m., December 3, 1958, "FOR THE RELOCATION OF THE MAIN DITCH OF SAID DRAINAGE DISTRICT AND OTHER INCIDENTAL WORK", all in accordance with the Plans, Specifications, Special Provisions and Proposal as prepared by the Wallace Engineering Company, District Engineers.

2. Proposals for the above work may be inspected at the residence of James J. Dunn, Commissioner of said District, R. F. D. Harmon, Illinois, or in the office of the undersigned Clerk of said Drainage District at Dixon, Illinois.

3. Each proposal shall be accompanied by a Certified Check in the amount of ten percent (10%) of the Bid, payable to the undersigned Drainage Commissioners.

A surety bond or performance bond will not be required, however, the Certified Check of the successful bidder will be held until the completion and acceptance of the work by the Drainage Commissioners as a guarantee and surety of the completion of said work.

4. The Commissioners reserve the right to reject any and all proposals and the Commissioners also reserve the right to accept the bid they deem most favorable.

Dated at Hamilton Township, Lee County, Illinois, this 14th day of November, A. D., 1958.

Signed: Louis E. Gonigam
James J. Dunn
George Scully
Drainage Commissioners of Union Drainage District No. One, Hamilton and East Grove Townships, Lee County, Illinois; Walnut, Illinois.

Church Workers Rebuild Arctic Circle Village

BEAVER, Alaska (AP) — This little Arctic Circle village is more snug and happy than it has been for years because friendly church workers from all parts of the United States answered its appeal for help.

A work camp of the American Friends Service Committee made a summer job of rehabilitating the community, mainly through building log cabins.

Had Problems
Beaver, founded in 1910 by a

Japanese trader, was originally a point of supply on the Yukon River for the Chandalar gold mines. Gold mining declined. The community turned to trapping. Fur prices dropped. Tuberculosis sapped the people's strength. In recent years the village has been largely on relief.

Moses Cruikshank, a resident, appealed for help. He said poverty and poor health had left the village without manpower, which made it difficult to improve living conditions. Their homes were drafty, overcrowded and in danger of being undermined by the Yukon River.

A group of young church volunteers — men and women — flew north. They worked 48-hour weeks, without pay, sawing lumber, building houses and driving tractors in the work camp.

Slept in Huts
In a large log cabin loaned by a trader the group cooked, ate and gathered in the evenings. They slept in three canvas huts. Dr. John Ferger, Dryden, N.Y., was the camp leader. When he wasn't doing carpentry he maintained a clinic where his main job was pulling teeth.

Only a couple of the campers had more than the most rudimentary skill in handling tools. Three well-trained men from the village taught the group how to build cabins.

Lady Tractor Drivers
No one grumbled or shirked when the work proved to be harder than practically anybody expected. Some of the girls, including the youngest, 17-year-old Anore Bucknell of Seattle, learned to drive tractors.

By the end of summer the crew completed 11 cabins and had begun two others. They left a supply of materials for the villagers to finish the remaining pair.

How Old Is An Old Man?

UNITED NATIONS, N.Y. (AP) — When is a man old?

Varying ages of retirement are laid down from country to country. A survey by the U.N. World Health Organization shows that old age benefits begin at 56 in Argentina. In France and New Zealand a man is put out to pasture at 60, while the retirement age of 65 still holds in the United States, Australia and most of Europe.

Citizens of Sweden must work until 67 to be eligible for benefits. The cutoff point has been placed at 70 in Canada, Ireland and Norway.

Man's quest for longevity seems to have paid off best in Monaco where 22.9 per cent of the population is over 60.

France runs second with 17 per cent 60 and over. Then come England with 15.9 per cent and Austria and Belgium with 15.6 per cent.

Countries boasting the fewest old people are Yugoslavia with 8.9 per cent, Romania 8.2 per cent and Turkey 6 per cent.

The U.N. statistical office places the U.S. figure at 12.7 per cent. Soviet Russia reports that among the Republic of Georgia's four million residents there are 1,060 persons ranging from 90 to 125.

WHO attributes this longevity record partly to Georgia's pleasant climate and numerous mineral springs.

Justice Frankfurter To Hospital

WASHINGTON (AP) — A mild heart disturbance has sent Supreme Court Justice Felix Frankfurter to a hospital for rest and observation.

A brief announcement from his office Friday said the justice was resting comfortably, and that his doctors were pleased with his progress. He entered the hospital earlier in the week for a check on the heart disturbance, the statement said, after he had complained of not feeling well.

Frankfurter, who was 76 on Nov. 15, is the oldest of the court's nine members. He has held his post since Jan. 30, 1939.

Highest Ground Observer Corps post in America is at 14,100 feet atop Pike's Peak in Colorado.

See Sharp Upturn In New Car Sales For Replacing Old

DETROIT (AP) — There are approximately 57 million automobiles on the nation's highways. More than 25 million of them are five years old or older.

These facts are shown in an Automobile Manufacturers Assn. survey. The association expects a sharp upturn in new car demand next year.

Harry A. Williams, managing director, says that while preliminary forecasts have put 1959 production at 5½ million cars, signs of unexpected strength indicate the figures may be in for an upward revision.

Expects Replacements
The replacement market represents a large part of the demand the industry counts upon each year for its new car sales volume.

The auto makers' association says the junk pile got approximately 4,200,000 cars in 1957. Another interesting statistic developed by the survey is that 2,200,000 of the cars now in use were built before World War II.

Counting trucks and coaches, 68,470,000 motor vehicles are registered in the United States. This is more than three-fifths of the world's motor vehicles.

The figures show there is one car in the United States for every 2.6 residents. In China the ratio is one to 4,461 and in the U.S.S.R., one to 61.

81 Million Licensed
Licensed to drive motor vehicles in the United States are 81 million adults, of whom 40 per cent are women. The 25-to-29-year age group accounts for 10,200,000 of the licensed drivers.

The association says sales totaling nearly 50 billion dollars will be made by U.S. automotive retail merchants in this year. It puts sales by motor vehicle dealers at 31 billion dollars; gasoline service stations \$14,700,000,000 and parts and accessories dealers, \$2,300,000,000. In 1929 automotive retail sales amounted to less than nine billion dollars.

Birds are descended from reptiles and still have many of the same characteristics as reptiles.

The term "gynarchy" denotes government by a woman or women.

Mexico's New President To Be Sworn in Monday

MEXICO CITY (AP) — Mexico inaugurates its 57th president Monday with pomp and circumstance reflecting its growing importance in world affairs.

Adolfo Lopez Mateos, 48, will officially begin his six-year term

Dec. 1. He succeeds President Adolfo Ruiz Cortines.

A clear indication of Mexico's new stature in international circles is the list of delegates from more than 50 nations to attend the inauguration.

Every major nation is represented except Spain and Red China, which are not recognized by Mexico.

The 16-member U.S. group is headed by Secretary of State Dul-

les and Dr. Milton Eisenhower, the President's brother.

Mexico's new role was emphasized by a conference last week-end between Lopez Mateos and Sen. Lyndon Johnson of Texas, Democratic leader. They pledged stronger ties between the neighboring nations.

Lopez Mateos, former labor minister and presidential candidate of the dominant Party of Revolutionary Institutions, was elected July 6.

Chemical Firm Buys Benzene From Russia

NEW YORK (AP) — The Dow Chemical Co. is buying about 54 million gallons of benzene from the Soviet government at a price well below the U.S. market average.

The company, announcing the agreement Friday, said it made the deal partly because of its "economic advantages." The reference apparently was to the reported purchase price of 24 or 25 cents a gallon. The current price of domestic benzene is 31 cents a gallon.

The contract, under which Dow will pay about 13½ million dollars to the Soviet government, appeared to be a major success by Russia in its attempt to penetrate the American market with raw materials at reduced prices.

The company also said another reason favoring the agreement was that the contract assured a dependable supply of benzene in the near future. In the past, Dow said, domestic supplies have been erratic and sometimes seriously inadequate.

Industry sources agreed that this was sometimes true, but said that at present there is an over-supply of domestic benzene.

The United States produces approximately 40 per cent of the world's goods and services.
